EXPERIENCE

Software Development Analyst
Jun 2026 - Present
BOSCH BRAZIL

- Design and develop global corporate solutions using .NET, C#, Angular, TypeScript, and relational databases with a focus on scalability, security, and maintainability.
- Drive DevOps initiatives (GCP, Cloud Run, GKE, Kubernetes, Terraform, Docker, CI/CD) to deliver to DEV, QA, and PROD.
- Coordinate releases using SemVer, ensuring versioning and deployment readiness for production in global teams.
- Apply Clean Architecture, DDD, TDD, code reviews, and automated testing (Jest, Cypress) to raise technical quality.
- Automate AI-assisted workflows (n8n), integrating internal systems securely and reducing manual steps.

Stack: .NET, C#, Angular, TypeScript, GCP, Cloud Run, GKE, Kubernetes, Terraform, CI/CD, Docker, PostgreSQL, MySQL, REST APIs, Jest, Cypress, Clean Architecture, DDD, TDD.

Digital Solutions Technician
Jan 2025 - Jun 2026
BOSCH BRAZIL

- Built and evolved full-stack solutions (Angular, Node.js, Java, C#) for global corporate projects.
- Designed and implemented integrations, APIs, and internal services with low coupling, security, and scalability.
- Modeled, optimized, and maintained PostgreSQL and MySQL databases.
- Contributed to high-impact innovation initiatives in global teams, translating complex business requirements into robust technical solutions.

Digital Solutions Apprentice
Aug 2023 - Jan 2025
BOSCH BRAZIL

- Supported backend development (PHP, Java) and frontend development (React, Angular), with data modeling in MySQL.
- Used Git, code reviews, and Clean Code principles within structured development workflows.

Internal Sales Assistant
Dec 2022 - Aug 2023
ASAAS

- Supported Inside Sales, Business Development, and Expansion teams with prospecting, lead qualification, CRM organization, and sales analysis.
- Used Excel, PowerPoint, Pipedrive, and reporting routines to improve commercial processes and decision-making.

CORE STACK

.NET | C# | Angular | TypeScript | GCP | Cloud Run | GKE | Kubernetes | Terraform | CI/CD | Docker | PostgreSQL | Clean Architecture | DDD | TDD | SemVer

SELECTED PROJECTS

Crissia
Multi-tenant SaaS for thrift stores: inventory, customers, suppliers, sales, lives, bags, shipments, and finance with public demo.

Worship Flow
Production private app for worship ministries with 30+ real users, role-based access, schedules, email reminders, and integrations.

FocusFlow
Public SaaS productivity platform with auth, real-time sync, Pomodoro, statistics, and PWA.

DBMind Agent
AI-powered database assistant that generates SQL from natural language using streaming chat and PostgreSQL.

EDUCATION

Full Cycle
Lato Sensu MBA in Software Architecture
Feb 2026 - Aug 2027

Catolica de Santa Catarina
Degree in Systems Analysis and Development
Oct 2024 - Apr 2026

EBAC
Full Stack Python Developer
Mar 2023 - Oct 2024

LANGUAGES

Portuguese: Native

English: Full Professional / C1 Advanced

CERTIFICATIONS

EFSET English Certificate 69/100 (C1 Advanced)

TOEFL Junior Standard Test - Gold Certificate, ETS, 2020

SQL for Data Analysis

Networking Basics
